PROFESSIONAL SUMMARY

Results-driven React Native and React developer with 5+ years of experience building high-performance, cross-platform mobile and web applications. Proven expertise in TypeScript, native module integrations (BLE, HealthKit, Google Fit), API and GraphQL integration, state management (Redux Toolkit, React Query), and CI/CD-based mobile deployments. Adept at leading mobile teams, optimizing app performance, and delivering clean, maintainable code across diverse domains including fitness, OTT, fintech, and travel.

CORE SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Mobile: React Native, Reanimated, BLE Integration, Apple HealthKit, Google Fit, VoIP, Push Notifications, Deep Linking, Offline Sync

Frontend: React.js, Redux Toolkit, React Query, Context API, Hooks, Performance Optimization

Backend & APIs: Node.js, REST APIs, GraphQL, WebSockets, Socket.io

AI Integration: LLM APIs, OpenAI, AI-powered features, Chatbots, Recommendation Systems, OCR, Image Recognition

Cloud & DevOps: AWS, GCP, Firebase, CI/CD, Fastlane, Xcode, Android Studio, App Store / Play Store Deployment

Tools: Git, GitHub, GitLab, Bitbucket, Jira, Postman, npm/yarn, patch-package

Other: Agile/Scrum, Cross-functional Collaboration, Code Reviews, Problem Solving

PROFESSIONAL EXPERIENCE

Sr. React Native Developer — *Trigma Solutions*

Sep 2026 – Present

- Lead React Native development for travel and flight booking apps, driving the company's entry into AI-powered mobile development with LLM-based features.
- Mentor developers, standardize reusable components, and collaborate with product, design, and backend teams to ship features on tight timelines.

Sr. React Native Developer — *Grewal Farm Fitness (Fit In 100 Days)*

Jan 2025 – Aug 2026

- Led React Native + TypeScript development of a fitness app with Apple HealthKit and Google Fit integration for real-time activity tracking.
- Built AI-driven personalized workout and nutrition recommendations along with offline caching and background sync for reliable performance.

React Native Developer — *Code Brew Labs*

Apr 2024 – Feb 2025

- Developed production React Native apps across food delivery, fitness, and IoT, including BLE integrations with smart hardware devices.
- Integrated AI chatbots and recommendation features, and built reusable UI libraries used across multiple white-labeled apps.

Jr. React & React Native Developer — *CS Soft Solutions Pvt Ltd*

Jul 2021 – Mar 2024

- Built cross-platform mobile apps and React dashboards for e-commerce, finance, and SaaS clients with REST and GraphQL integration.
- Explored AI/ML integrations (image recognition, OCR) and improved performance through code splitting, memoization, and Hermes tuning.

Mobile App Developer Intern — *CS Soft Solutions*

Jan 2021 – Jul 2021

- Developed React Native apps for iOS and Android, including an OLX-style classifieds app with authentication, image upload, and category listings.

KEY PROJECTS

Portl Ultragym (Shark Tank Fitness App) | *React Native, Reanimated, BLE, AWS*

Built a fitness app integrating with smart gym machines via BLE for real-time tracking of reps, sets, and calories; designed interactive dashboards with live progress visualization for an immersive workout experience.

Dahiya Films (OTT Streaming Platform) | *React Native, Redux Toolkit, react-native-video*

Developed a scalable OTT platform with HD playback, adaptive streaming, authentication, and tiered subscriptions; implemented deep linking and Redux Toolkit for seamless navigation and content discovery.

Royo Apps (Multi-vertical Delivery Suite) | *React Native, Redux, Socket.io*

Contributed to white-labeled apps for food, grocery, pharmacy, and consultation services with real-time order tracking, live status updates, multi-vendor flows, and reusable UI components.

NANOVEST (Stock Exchange App) | *React Native, React Query, Redux Toolkit*

Built a real-time stock trading app with live market data, historical charts, personalized portfolios, auto-refetching, watchlists, custom alerts, and smooth cross-platform performance.

My Outdoor Agent (US Property Leasing App) | *React Native, WebSocket*

Developed a US-focused leasing marketplace for outdoor spaces with maps, filters, booking requests, in-app chat, payments, authentication, push notifications, and lease tracking.

Fit In 100 Days (Health & Consultation App) | *React Native, VoIP, WebSocket*

Built real-time chat and video consultations with healthcare professionals, including swipe-to-reply gestures and a custom low-latency call interface with background notifications.

EDUCATION

Bachelor of Science

Himachal Pradesh University (HPU)

Apr 2016 – Jun 2019

LANGUAGES

English (Professional) **Hindi** (Native)
